Application

CleanLine dispensers are made of brushed, stainless steel with top/bottom in plastic. The design is simple, and it fits any bathroom décor.

References

Offices and administration, hotels, sports facilities and public institutions.

Standard colour

Prod. No.: 846, brushed stainless steel with top/bottom in grey plastic.
Prod. No.: 847, brushed stainless steel with top/bottom in black plastic.

Activation

Dosage is released when hand is held approx. 5 cm underneath the dosage nozzle. Soap dosage is released once only. A blue LED indicator lights up when the hand is registered by the sensor and dosage is activated. Also, the smart LED indicator will flash to indicate status such as low battery for the soap dispenser. Access to the internals of the dispenser is only possible with a special key supplied with the unit.

Installation

Dispenser for wall-mounting.

Power source option

6 Vdc transformer for 230V.
