Application

The Stainless Design product line combines hygiene and durability with classic elegance to suit any commercial bathroom. The products are designed specifically for use in public toilets where low maintenance is called for, and equipment must be able to withstand rough treatment.

Referencer

Offices and administration, shopping malls, restaurants, hotels, airports, train stations, sports facilities and public swimming pools, schools, public institutions, and cultural centres.

Standard colour

Brushed stainless steel.
Also available in all RAL colours.

Power source option

6 Vdc transformer til 230V.

Installation

Wall mounting.

Activation

Intelligent sensor automatically adjusting the optimum activation distance. Dosage is activated when hand is held approx. 5 cm/1.96" underneath the dosing nozzle – dose is released only once per activation. LED light indicating when the dispenser is in use.
